Math Practice Test No. 3

Year 2 · 3rd term · Name: _____ Date: ___/___

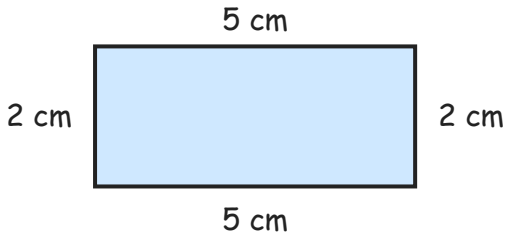

1 **What is length?**

- ◯ how long something is, from one end to the other
- ◯ the total distance around a shape
- ◯ how high something is, from the bottom to the top

2 **What does tall mean?**

- ◯ how much something measures from one end to the other
- ◯ how much something measures across, from one side to the other
- ◯ how high something is, from the bottom to the top

3 **What is the perimeter of the rectangle?**

- ◯ 14 cm
- ◯ 12 cm
- ◯ 7 cm

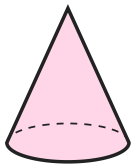

4 **What is perimeter?**

- ◯ the total distance around a shape
- ◯ how high a shape is
- ◯ how long one side of a shape is

5 **Perimeter is the distance around a shape. Around means...**

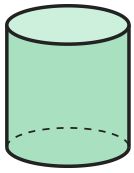

- ◯ the middle of the shape
- ◯ along all the sides of the shape
- ◯ only the top of the shape

6 **How many flat faces does a cone have?**

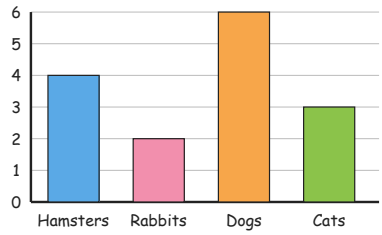

- ◯ 2
- ◯ 1
- ◯ 0

7 **A cylinder has...**

- ◯ 2 flat faces and a curved surface
- ◯ 1 flat face and a curved surface
- ◯ only a curved surface

8 **Look at the bar graph. How many dogs are there?**

- ◯ 6
- ◯ 4
- ◯ 3

9 **In a bar graph, how do we know how many there are?**

- ◯ Read the number where the top of the bar is.
- ◯ Count how many bars there are.
- ◯ Read the name under the bar.

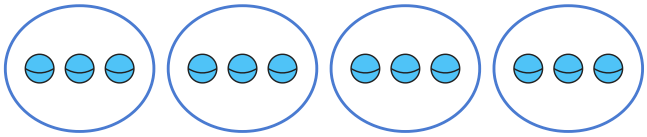

10 **"After dinner, a unicorn will carry you to bed." This is...**

- ◯ likely
- ◯ impossible
- ◯ certain

11 **"I will eat rocks for dinner." This is...**

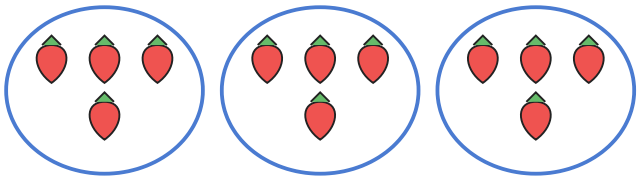

- ◯ certain
- ◯ impossible
- ◯ likely

12 **Look at the groups. Which repeated addition is right?**

- ◯ 3 + 3 + 3 + 3 = 12
- ◯ 4 + 3 = 7
- ◯ 3 + 3 + 3 = 9

13 **Look at the strawberries. Which addition sentence is right?**

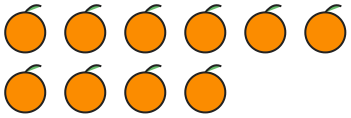

- ◯ 4 + 3 = 7
- ◯ 3 + 3 + 3 = 9
- ◯ 4 + 4 + 4 = 12

14 **Mike and Laura share 10 oranges equally. Which division sentence shows it?**

- ◯ 10 + 2 = 12
- ◯ 10 ÷ 2 = 5
- ◯ 10 ÷ 2 = 8

15 **Mike and Laura share 10 oranges equally. How many oranges does each one get?**

- ◯ 2
- ◯ 10
- ◯ 5

Answer key

1. **how long something is, from one end to the other**
   Length is how long something is, from one end to the other.
2. **how high something is, from the bottom to the top**
   Tall means how high something is, from the bottom to the top. A tall tree goes very high, from the bottom to the top.
3. **14 cm**
   5 + 5 + 2 + 2 = 14 cm.
4. **the total distance around a shape**
   Perimeter is the total distance around a shape. Add all the sides!
5. **along all the sides of the shape**
   Around means along all the sides of the shape: top, right side, bottom, left side.
6. **1**
   A cone has 1 flat face (at the bottom) and a curved surface.
7. **2 flat faces and a curved surface**
   A cylinder has 2 flat faces and a curved surface. A cone has 1 flat face and a curved surface. A sphere has only a curved surface.
8. **6**
   The Dogs bar goes up to 6: there are 6 dogs.
9. **Read the number where the top of the bar is.**
   Each bar is one group. The taller the bar, the more there are: read the number at the top of the bar.
10. **impossible**
    We know it won't happen: impossible.
11. **impossible**
    We know it won't happen: impossible.
12. **3 + 3 + 3 + 3 = 12**
    4 groups of 3: 3 + 3 + 3 + 3 = 12.
13. **4 + 4 + 4 = 12**
    3 groups of 4: 4 + 4 + 4 = 12, so 3 × 4 = 12.
14. **10 ÷ 2 = 5**
    10 ÷ 2 = 5: each one gets 5 oranges.
15. **5**
    10 oranges shared into 2 equal groups is 5 oranges in each group: 10 ÷ 2 = 5.
